

Freight Charge and Fuel Surcharge - Updated Order Policies

Dear Valued Customer,

As fuel costs continue to rise, Gertex Solutions is no longer able to fully absorb these increases. As we continue to monitor the situation, it is necessary for us to increase our freight charges and fuel surcharge effective June 1st, 2022.

Our new policies are as follows:

- **Orders under \$1000 will be subject to \$90 freight charge**
- **Orders greater than \$1000 will be subject to a 0.75% fuel surcharge**
- **Minimum order amount of \$300**

The Gertex Group of Companies is closely monitoring this situation and is committed to controlling costs and appreciates your ongoing loyalty and support.

For any questions or comments you may have, please contact your sales rep or customer service for more information.

Best Regards,

Gertex Group of Companies Management
